Having trouble with your paycheck?**

*UHWP Members can call the Member Resource Center for help at 1-800-252-3894, M-F 9AM - 5PM.*

*We Are...*

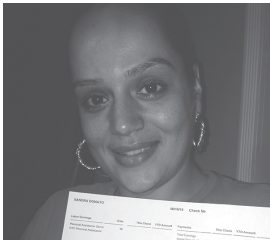

## UNITED HOME CARE WORKERS OF PENNSYLVANIA

Founded in 2008 by a handful of courageous home care workers who fought to have a voice, the United Home Care Workers of Pennsylvania is now the largest organization of home care workers in Pennsylvania. Our mission is simple: we're fighting for a better home care system for attendants and our consumers.

Together, we use our strength in numbers to fight for – and win – improvements that attendants and consumers deserve. We will not rest until every caregiver is lifted out of poverty, and each and every consumer has access to the most stable, high quality care possible.

*We Are...*

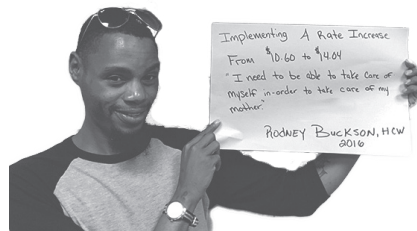

## WINNING IN OUR FIGHT TO RAISE UP HOME CARE!

We won the right to overtime, putting \$12 million in the pockets of PA attendants.

We led the fight for Medicaid Expansion, winning healthcare coverage for over 700,000 in PA.

We helped home care workers request and receive wage increases they did not know they were eligible for

We rallied for a fair budget and won an increase in home care funding.

## FIGHTING FOR \$15!

**Home care workers won \$15 starting rates in more than five states!**

Here in Pennsylvania, we stepped up our fight for a living wage big time, leading rallies across the state! Together, we will continue to build our movement to make home care good jobs with a living wage of \$15 an hour and benefits.

*Are You...*

## READY TO JOIN OUR MOVEMENT?

The only way to have a say about our jobs and consumers with policymakers in Harrisburg and DC is to build a powerful voice for ourselves with the resources to fight for the improvements we deserve.
